

Below Wynyard Central East 2 apartments benefit from interiors finished in Resene Wan White.

ELEGANT BACKDROP

With stunning outlooks drawing the eye, the refined interiors at Wynyard Central East 2 apartments are finished in high quality yet understated Resene Wan White

Standing out is not always what you want from a paint in the wider scheme of things. Sometimes a subtle tone complements more high profile features – such as a panoramic harbour outlook.

For the new apartments in the Wynyard Central development at Auckland's Wynyard Quarter, the water views naturally take centre stage while the spacious interiors are finished to the highest standards, the understated paint finish included.

Resene Wan White was specified for all the upmarket apartments. There are many whites offered by Resene, from cool to warm, however

Resene Wan White is a neutral white and as such was considered ideal for the light-filled apartments.

Resene Wan White forms part of the popular Resene Karen Walker paints range – one of many ranges to explore, including the option of downloading swatches from the Resene website.
