What do judges look for?

In making their assessments, judges assess each project by looking at:

- The relationship of the building to its site, context and presence
- The degree of consistency and completeness in expressing the relationship between concept, form, and structure

- Light, colour, texture and spatial qualities
- Structure, construction, materials and issues of durability and detail
- Environmental performance
- User satisfaction, value to the client and acceptability of solutions to the brief
- Contribution to the advancement of architecture as a discipline and the enhancement of the human spirit.

Architects and Architecture

Architecture is a special discipline which requires creativity, specialised technical knowledge, listening to people's dreams and needs, and the capacity to turn these into reality on either a large or small scale, as required. The NZIA Resene Awards for Architecture programme celebrates architects who have done this for - and with - their clients.

NEW ZEALAND INSTITUTE OF ARCHITECTS INCORPORATED

The NZIA Resene Awards programme is perhaps the most visible proof of NZIA's commitment to raising the profile of Architecture and Architects' services. Each year since 1927, the New Zealand Institute of Architects has offered an Awards programme to showcase and celebrate top quality architecture in New Zealand. Resene Paints Limited has been the proud sponsor since 1990.

The programme has three levels of achievement: *Local, New Zealand* and *Supreme New Zealand*. The purpose at all levels is to:

- Promote excellence in design and to advance the profession of architecture
- Raise public awareness and understanding of the purpose and value of good architecture
- Encourage and promote environmentally-responsible practices and solutions for the enhancement of the built environment
- Raise the standing of architects within the community and encourage informed public debate on architectural and urban design issues.

The *NZIA Resene Local Awards for Architecture* programme celebrates quality, competent new architecture at a community level.

The *NZIA Resene New Zealand Awards for Architecture* programme determines the NZIA Resene New Zealand Award winners (for outstanding work) and the NZIA Resene Supreme New Zealand Award winners (for exceptional work deserving the status Supreme).
