

Make it special

To enliven this kitchen, the designer chose a Resene Metallics and Special Effects paint

Using contrasting textures is a good way to make different materials stand out in a kitchen. For this project, owners Andrew and Emma Bull teamed dark American oak cabinets with a glittering gold-coloured glass splashback.

Resene Imperite IF 503, in Resene Bullion from the Resene Metallic & Special Effects range provides a glistening copper gold that offsets the dark cabinets and stainless steel appliances. The metallic finish and glass help to bounce light around the room, and introduce a refined look to the Balinese-influenced design. The gold of Resene Bullion also picks up the tones of the Mousse granite benchtops.

The Resene Metallic & Special Effects collection features a broad range of precious-metal finishes and a kaleidoscope of coloured metallic and subtle pearlescent finishes.

Other products to consider for your kitchen include Resene Fly Deterrent, which discourages flies from sitting on the painted surface. And Resene Space-Cote Low Sheen Kitchen & Bathroom and Resene Lustacryl Kitchen & Bathroom (semi-gloss) both combine anti-bacterial silver protection and MoulDefender mould inhibitor.

For details, or to pick up a copy of the latest colour fandeck, visit a Resene Color-Shop, or freephone 0800 RESENE (737 363). Website: www.resene.co.nz.
