

Visual continuity, between rooms and from outside to inside, can make all the difference to the overall look of a house. The Resene colours chosen for this project reflect such an approach.

Many of the interior walls feature Resene Westar with different strengths of Resene Napa on trim and pillars outside.

Karen Warman, Resene marketing manager, says paints recommended for broadwall areas include Resene SpaceCote Low Sheen and Resene Zylone Sheen. These are waterborne paints that are low-odour and Environmental Choice-approved.

“Resene SpaceCote Low Sheen is tough enough for everything from living room walls through to wet areas such as bathrooms. And with Resene’s special non-VOC decorative tinters, Resene colours can be tinted without any unwanted volatile organic compounds.”

To help with your colour choice, Warman suggests checking out the latest Resene The Range fandeck.

For more information, or to pick up a copy of the latest fandeck, visit a Resene ColorShop, or freephone 0800 RESENE (737 363). Website: www.resene.co.nz.

Top and above: Resene Westar – a stone grey with a hint of brown – features on the house interior, where it complements a dark grey carpet. Resene SpaceCote Low Sheen and Resene Zylone Sheen are the recommended paints for broadwall areas. These paints are low odour and Environmental Choice approved.
