Resene X200

Acrylic Waterproof Coating

Property owners have expressed a need for a resilient exterior coating for concrete buildings that is highly water resistant, possesses excellent adhesion and stretch characteristics and looks as good as it performs. It also has to be lasting—no property owner can afford to recoat after only a few years.

Many have found the answer in Resene X200. Carrying a 10 year manufacturers guarantee X200 represents a major advance in waterproof coatings achieving maximum film build in only two coats.
