

DREAM IN GREEN

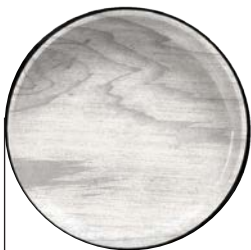

Shades of green are the hottest trend in interior design – and the perfect way to create a peaceful, relaxed ambience in your home.

Softened mints and sage greens lend themselves to creating restful spaces in bedrooms – creating a much-appreciated haven in any home. Team with crisp white Resene Sea Fog for the ultimate soothing style, or amp up softer shades with bright, jewel-toned accents – think emeralds like Resene Atlas. Borrow inspiration from nature and adapt a tone-on-tone look of your own. Greens are ideally suited for building tonal looks, so try combining green variations with silvery shades like Resene Silver Chalice. Since tone-on-tone schemes are built on layering, the more you add, the more the whole look will work. Pick hues that complement each other, but with enough variation to keep things interesting.

The Resene colour collection includes the latest designer paint colours. Available from Resene ColorShops and resellers (resene.co.nz/colorshops or 0800 737 363). Please view a physical Resene colour sample before making your final choice.
