SPICE OF LIFE

Spicy terracotta, ochre, and cinnamon signal the arrival of autumn. But there's nothing to stop you from embracing these hues all year round. Resene Hot Chile, Resene La Bamba, and Resene Moroccan Spice add a splash of colour to your chosen living space but are versatile enough to be paired with your existing decor.

RESENE SORRELL BROWN

SECOND NATURE

A change of seasons brings a fresh new approach to colour with it. While we often turn to Mother Nature as our muse for our wardrobe's colour palette, this season we're inviting the outdoors inside our homes too. Enduring neutral hues – such as Resene Navarone and Resene Del Rio – are great starting points. Partner the delicate neutrals with accents or feature walls in rich chocolatey shades, or introduce a vibrant hint of olive or forest green. *Visit your Resene ColorShop for more inspiration.*

Colours are depicted as accurately as the printing process allows. Always trial your favourites using Resene testpots before making your final choice RESENE NAVARONE
