

Repainting children's rooms

Repainting children's rooms

Things to consider

- **What room or rooms are being painted?**
- **What is on the walls?**
- **What condition are they in?**
- **Are there any critical lighting issues?**
- **Have you decided on a colour scheme?**
- **Are you doing the work yourself?**
- **What is the size of the room(s)?**
- **Does your child want to make a feature of a particular wall or walls?**

Notes:

- Children's rooms are not really different to master bedrooms except they may get more wear depending on the age of the child and how much they are allowed to do in their room.

- Children are often more adventurous with colour and techniques and with their parents' permission they could use a metallic and/or Resene Pixie Dust on their walls.
- Also recognise that like kitchen areas there is a good opportunity for Resene Magnetic Magic as a first coat on a key wall before applying the topcoats.
- Resene Spacecote Low Sheen is ideal or Resene Enamacryl Metallic if a metallic finish is desired. If paint odour is an issue use Resene Zylone Sheen.
- For special effects you could try Resene Magnetic Magic, Resene Pearl Shimmer, Resene Pixie Dust or Resene Blackboard Paint. See the Resene KidzColour chart for colour and finish ideas.
- The Resene KidsColour chart allows adults and children to explore colour and design options tailored to children of all ages.

Key accessories essential to complete the Job

- 220 grit zinc stearate sandpaper
- 35-50mm PAL Legend or Haydn Genius brush and/or a cutting in brush
- PAL No.1 roller sleeve
- Resene Interior Paintwork Cleaner (concentrate)
- Roller handle and roller tray
- Selleys No More Gaps
- Selleys Rapid Filla

Add-ons – to make the job easier or quicker

- Carpet guard (if skirtings are also being done)
- Dropsheet
- Masking tape
- Meths for clean up around light switches etc
- Wooden extension pole (or aluminium if doing a lot of future painting)
