

# **WARNING**

This is a reconstituted wood product containing wood, resin, and wax. This product should be handled in accordance with safe work practices. As with all wood and timber products, exposure to dust from this product may cause irritation to the eyes, respiratory system and skin, and may cause sensitisation by inhalation and skin contact. Work areas should be kept clean. Sawing, sanding and routing equipment should be fitted with dust extractors such that dust levels are kept within standards laid down by Worksafe Australia, Occupational Safety and Health New Zealand, or the specific country of use. If not, wear a Dust Mask conforming with AS/NZS 1715 and AS/NZS 1716 and eye protection conforming with AS/NZS 1337. Repeated inhalation of wood dust over many years may increase the risk of nasal cancer. Storage areas containing large quantities of board should be adequately ventilated. If large quantities of this product are stored in a non-ventilated area, emissions of Formaldehyde could accumulate to a level which may irritate some people. For further information, refer to the Material Safety Data Sheet for this product available from

The Laminex Group. A division of *FLETCHER BUILDING PRODUCTS LTD*
