Resene colour charts

for the latest colour options

Glossary

A scheme made up of colours that are opposite each other on the colour wheel,

such as red and green.

The effect of using different colours or tones

Pure colour – it can be another name for

Primary colour

Colour that cannot be produced by mixing any two other colours. Primary colours are: red, yellow and blue. Reflectance value

Degree of lightness or darkness of a tint, hade or tone. White has the highest eflectance value and black the lowest. econdary colour

Colour formed by mixing together two primary colours. Secondary colours are: orange, green and purple.

A pure colour (hue) with black added. This new colour has a lower reflectance value (is larker) than the original colour.

Colour formed by mixing together any two secondary colours.

A pure colour (hue) with white added. This new colour has a higher reflectance value is lighter) than the original hue.

Monochromatic. Using several values of one

A pure colour (hue) with grey added. This new colour is a softer variation of the

The Resene colour system divided into palettes with notational coding to reflect each colour's position in colourspace.

Proven colour scheme that has been used successfully over a long period of time.

Varying shades of one colour, such as Resene Half Spanish White or Resene Quarter Spanish White.

collection of fashion and classic directions and themes, true to origin colours the year 2008.

Continuing the trend from 2007, colours are

ransitioning slowly, staying current longer - a

earlier in the decade. Seasonless colours are

pecoming sought after as a way to carry

stark contrast to the short sharp colour bursts

forward fashion, with colours being refreshed

comforting in their familiarity.

A heady blend of colour options inspired by elements of fashion, nature, the economy and

colour is easy - it is combining them together into a satisfying colour scheme that becomes trickier. In lieu of defined colour rules, heauty will be the filter for successful colour schemes. The combination of colours will become key rather than any one hue in

by texture, pattern and placement rather than a change in the colour. Forecasting is increasingly balancing the fresh new brights with a sense of the traditional, bringing the two together to provide vintage hues freshened by new fashion bolds. Many colours are underpinned by historical hues, ust as the distinction between clothing

fashion and decorating fashion blurs, so too earth tones joined by rich burgundies and does the distinction between home and work browns, honey yellows and citrus greens, all schemes. As family and worklife increasingly lightly cooled with contemporised blues and merge at frenetic speed in the same greens. Organic greens wane as the palette locations, palettes and styles sympathetic to tends towards warmer tones. The purple both environments are becoming increasingly family continues to strengthen as pinks wane, while the yellow family and orange We are moving to a borderless existence edged yellows follow a similar uptrend. when both work and life, domestic and Expect to see the colours of sunset international, blend together. This perpetual

connectedness is underpinning a growing sense of responsibility to the globe and the interest in sustainability - not a 'deep' green normal life from minimising packaging to using authentic eco-friendly alternatives as impact is a must. everyday products.

Rooms designed purely for relaxation, ing forgotten quiet, yet highly saturated, eading retreat. While technology levelopments hasten, the desire for calm balances the urgency and provides breathing space, with homes being decluttered to enable simpler living; less complicated lives visual cleaners. with better quality but fewer possessions.

With technology bringing the world to the Range 2008 collection. Enjoy! fingertips and doorsteps of far flung nations,

Introducing The Range 2008, a ethnicity continues to drive new colour colours by Resene conceived for rather than westernised interpretations. With China hosting the Olympic Games, the Asian influence looks set to increase accompanied by the sari brights of India.

the world come together into the 2008 In a world of anything goes, selecting one

The palette is warming with a host of warm

reinvented as relaxing interior backdrops.

Red is back buoved by Asiatic origins and inspired by the warmth of wood bringing way of life, but a greener way of living a warm glowing shades full of depth. Bright reds will remain popular when maximum Shadowy hues of murky blacks provide a

meditation and yoga will find their way into waning in favour of warming mid tones, Double Otter new homes as a source of stress release - the Which provide more comfortable backdrops Double Spanish White modern light on the senses version of the for furnishings and, like clothing, more practical tones for cleaning and the rigours of everyday living. Off-whites, rich browns and metallic greys anchor the neutral palette, joined by the soft tones of chalky pastels for broad appeal. Barely there hues will act as

Inject some life into your colour with The

Surrounding us daily, nature is always a strong influencer on the palette providing endless colour inspiration from earth, sky and sea. The palette is moving increasingly genderless and more elegant than previous years with the shocking brights becoming saturated. The influence of nature and especially ocean bound water brings the palette to a more middle ground.

background for other neutrals. Plain white is
