

Lock it in!

Don't let stains ruin your fresh paintwork. Lock stains in with Resene StainLock, a waterborne stain sealer formulated to hold back a wide range of common surface stains to prevent them damaging subsequent topcoats.

It's ideal for exterior and interior projects and is designed for overcoating with your choice of Resene waterborne decorative topcoat. Use it on substrates such as brickwork, concrete, fibre cement, old stained surfaces, plasterboard and over stained areas where stain transmission is more likely. Once dry topcoat in your favourite Resene waterborne decorative paint system.

One coat is all that is needed to lock in most stains.

Resene StainLock is available from Resene. See Data Sheet D408 for further technical information.
