**PRODUCT NOTES**

**Resene Enamacryl Metallic - waterborne enamel**  
 An Interior/Exterior breakthrough product that may be used in all those areas traditionally reserved for solventborne enamels to achieve a metallic effect. Environmental Choice approved. See Data Sheet D309a for technical information.

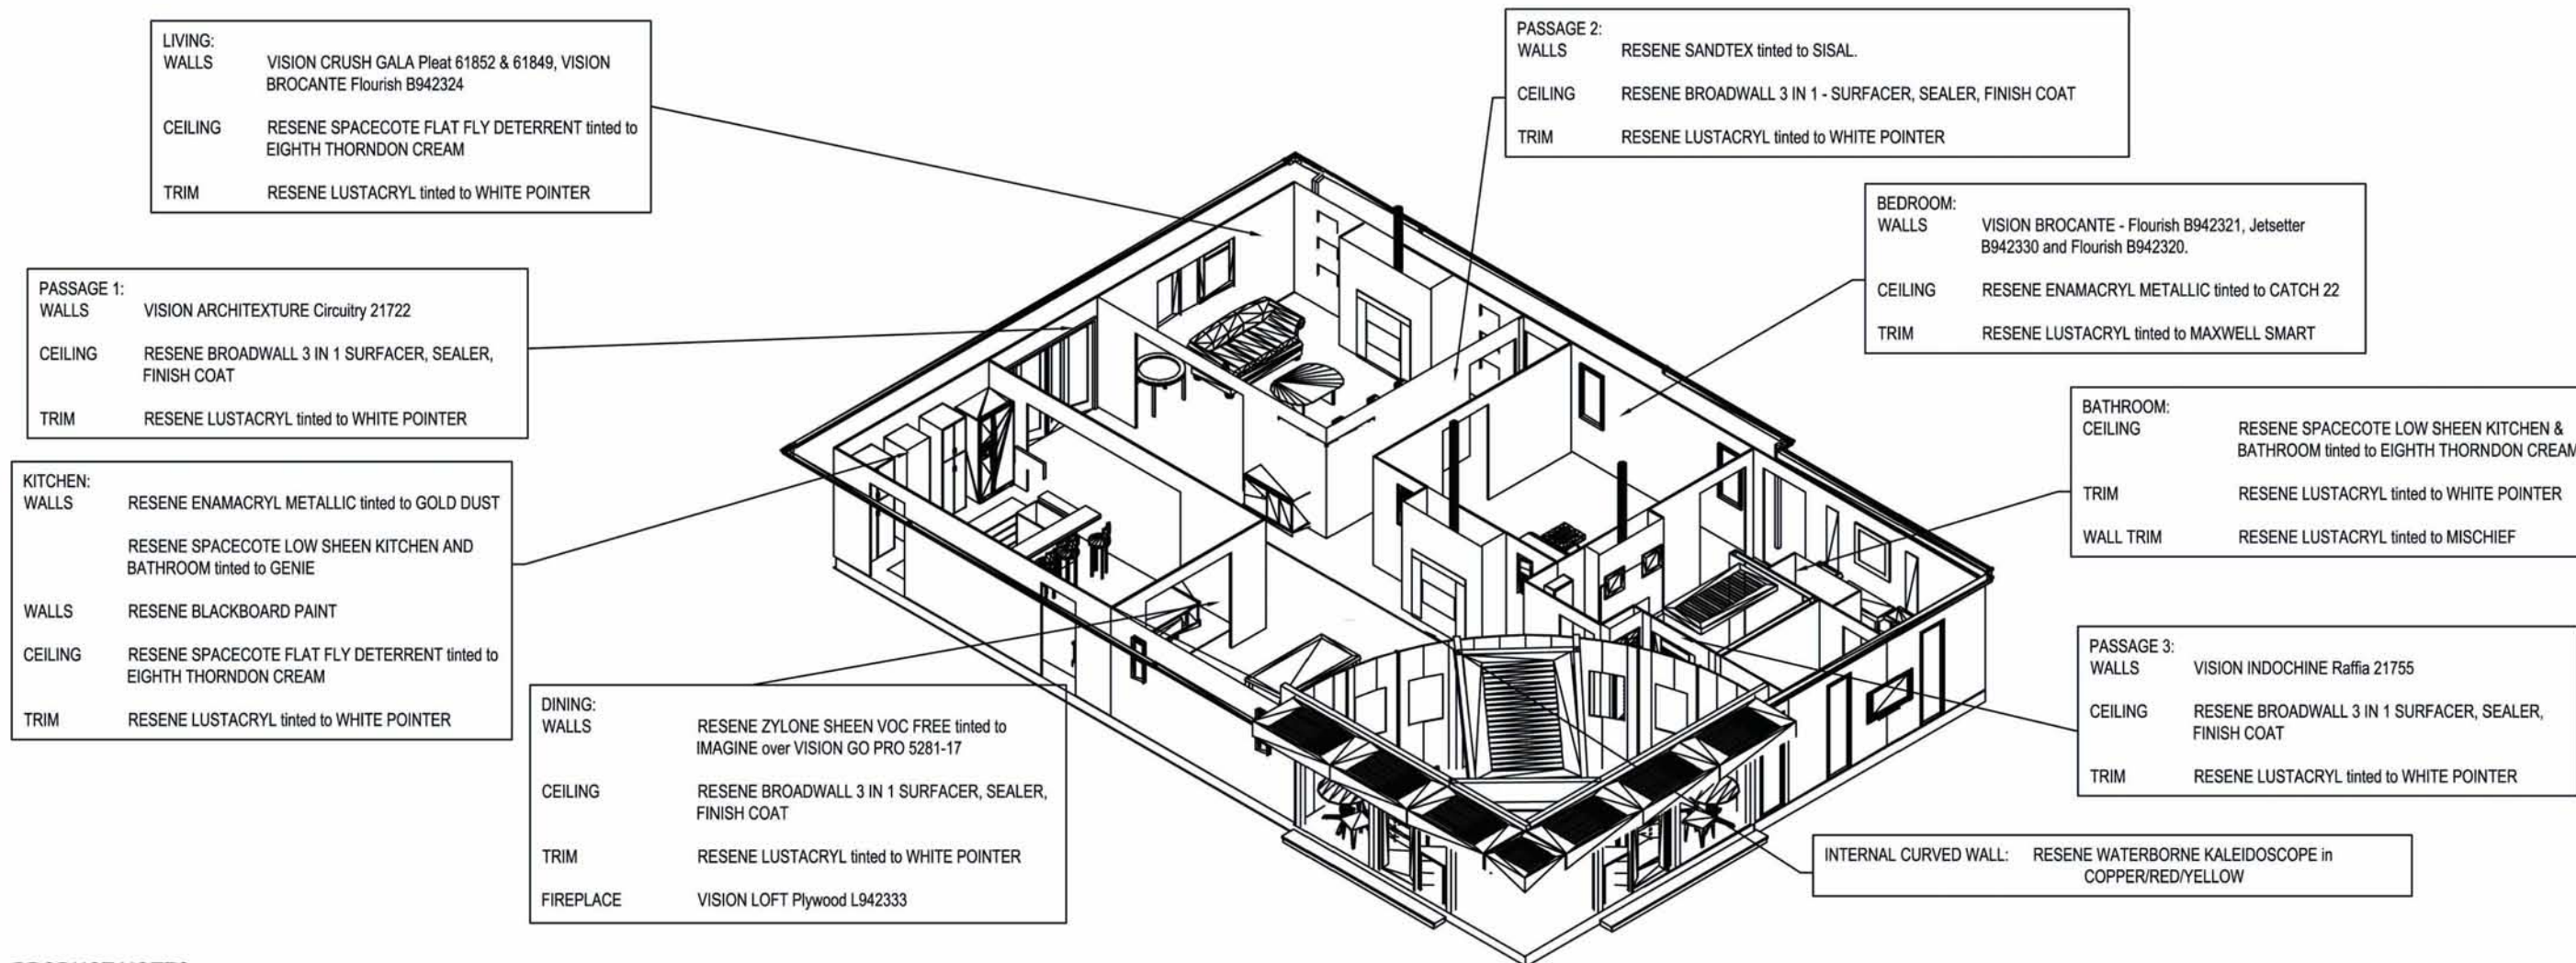

**Resene Lumbersider and Lumbersider Cool Colour - satin acrylic**  
 An exterior/interior 100% acrylic resin to ensure maximum durability in all exposed conditions. Imparts a natural satin look that is fully washable. Cool Colour technology performs optimally on dark colours that are the most prone to heat build-up. Environmental Choice approved. See the Resene Keep your cool - Cool Colours brochure and Data Sheet D34c for technical information.

**Resene Non-Skid Deck & Path**  
 An exterior/interior 100% acrylic coating filled with graded silicas tinted to a range of standard colours. Designed for use on both concrete and bitumen to give a durable, tough, non-skid finish on all areas where foot traffic is likely. See the Resene Decks, paths, driveways and recreational areas colour chart to view the standard colour range or let Resene create a custom colour match to suit. Environmental Choice approved. See Data Sheet D313 for technical information.

**Resene Waterborne Woodsman - penetrating oil stain**  
 An exterior waterborne wood stain matching the needs of timber to the desire to achieve the most natural appearance possible. See the Resene Exterior wood stains chart to view the standard colour range or let Resene create a custom colour match to suit. Environmental Choice approved. See Data Sheet D57a for technical information.

**PRODUCT NOTES**

**Resene Aquaclear - urethane acrylic varnish**

Developed as a waterborne alternative to turps thinned oil modified urethanes for interiors. Can be used on its own or over Resene Waterborne Colorwood wood stained finishes. Environmental Choice approved. See Data Sheet D59 for technical information.

**Resene Blackboard Paint**

A premium scrubbable 100% acrylic coating for interior and exterior smooth wallboards and panels where a hardwearing blackboard coating is required. Use only with high quality blackboard chalk using a blackboard duster or soft cloth to remove chalk. Environmental Choice approved. See Data Sheet D901 for technical information.

**Resene Broadwall 3 in 1 - surfacer, sealer, finish coat**

Resene Broadwall 3 in 1 is designed for use over stopped and jointed wall systems in place of traditional surfacers and sealers. It equalises surface porosities, smoothes minor surface irregularities, minimises textural differences and provides a perfect base for subsequent Resene finishes. A key element to achieving a Level 5 finish on paperfaced plasterboard. Suitable for use as a surfacer, sealer and finish coat on ceilings in dry areas. Environmental Choice approved. See Data Sheet D810 for technical information.

**Resene Enamacryl Metallic - waterborne enamel**

An interior/exterior paint finish that may be used on everything from trim and joinery through to broadwall and exterior surfaces to achieve a metallic effect. See the Resene Metallics & special effects colour chart for the standard colour range or let Resene create a custom colour match to suit. Environmental Choice approved. See Data Sheet D309a for technical information.

**Resene Lustacryl - semi-gloss waterborne enamel**

This interior/exterior breakthrough product may be used in all those areas traditionally reserved for solventborne enamels. Non-yellowing, fast drying and has much lower odour than solventborne counterparts. Environmental Choice approved. See Data Sheet D310 for technical information.

**Resene Sandtex - specialist finish Mediterranean effect**

An exterior/interior tough acrylic texture finish for beautifying and protecting concrete structures. A 150 micron texture with the ability to recreate the texture of natural sandstone. Available in Standard and Superfine variants in most Resene colours - see the Resene The Range Textures & Specialist Effects to view a sample. Environmental Choice approved. See Data Sheet D71 for technical information.

**Resene SpaceCote Flat Fly Deterrent - waterborne enamel**

Designed to bring enamel style toughness to interior broadwall areas, allowing you to get a desirable flat finish without sacrificing durability. Novel formulation designed to discourage flies from landing on areas painted with this product minimising the appearance of fly spots and keeping the paint finish looking its best for longer. Environmental Choice approved. See Data Sheet D314 for technical information.

**Resene SpaceCote Low Sheen Kitchen & Bathroom - waterborne enamel**

Combines the benefits of a waterborne enamel with added anti-bacterial silver protection and MoulDefender in a desirable low sheen finish. Perfect for bathrooms, kitchens and all other wet areas where added protection is desired. Environmental Choice approved. See Data Sheet D311K for technical information.

**Resene Waterborne Kaleidoscope**

Resene Waterborne Kaleidoscope is a special effect colour shift pigment that changes colour with light and movement. Move past a Resene Waterborne Kaleidoscope painted area and see it change as you move. Available in a range of colour effects, the copper/red/yellow effect is used in the Vector Living Space.

**Resene Zylone Sheen VOC Free - low sheen acrylic**

An attractive low sheen finish, its ease of application, washability and durability make it an ideal choice for interior use. A very low odour product without unwanted VOCs. Environmental Choice approved. See Data Sheet D302 for technical information.
