

★★★ Difficulty level ★ easy ★★ moderate ★★★ challenging Resene kids art with Mark Rayner – 123

You will need:

- Artists' brush
- Resene Testpot brush
- Resene Terracotta Sealer
- Resene FX Fluoro Orange
- Resene FX Fluoro Yellow
- Resene Testpot of Resene White
- Terracotta plant pot

Step one

Apply one coat of Resene Terracotta Sealer to the entire inside and outside of the plant pot and allow to dry.

Step two

Apply two coats of Resene White to the outside and inner rim of the plant pot. Allow two hours for each coat to dry.

Step three

Paint stripes on the outside and inner rim of the plant pot, as show, using Resene FX Fluoro Yellow. Once the first coat has dried, apply a second coat and allow to dry.

Step four

Paint stripes on the outside of the plant pot, as show, using Resene FX Fluoro Orange. Again, once the first coat has dried, apply a second coat and allow to dry. How cool is that?

It's easy to create this dazzling plant pot using two fabulous Resene FX Fluoro colours.

Top tip:

For a shiny finish apply two coats of Resene Art Action Glaze (gloss) to the outside of the plant pot.

Here's another idea:

This funky striped pot was painted with Resene FX Fluoro Pink and Resene FX Fluoro Green.
