

★★★ Difficulty level ★ easy ★★ moderate ★★★ challenging

Resene kids art with Mark Rayner – 20

You will need:

- Damp cloth
- Old wooden chair
- Paintbrushes
- Resene Quick Dry acrylic primer undercoat
- Resene testpots in the following colours: Resene Alabaster (x2) and Resene Black
- Resene Multishield+ gloss
- Sandpaper

Step one

Carefully sand the back and seat of the wooden chair (you might need some help from a grown-up with this). Wipe down with a damp cloth.

Step two

Apply one coat of Resene Quick Dry acrylic primer undercoat to the back and seat of the chair. Allow at least one hour to dry.

Step three

Paint the back and seat of the chair with two coats of Resene Alabaster, allowing two hours to dry between coats.

Step four

Using a smaller brush, carefully paint zebra stripes using Resene Black.

Step five

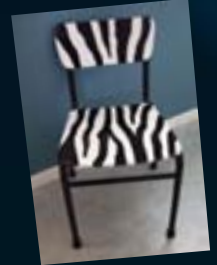

Once dry (after about 2 hours), apply a second coat of Resene Black to the stripes. Allow to dry.

Step six

Apply two coats of Resene Multishield+ gloss to the back and seat of the chair, allowing two hours to dry between coats.

Transform an old wooden chair into a safari-inspired zebra masterpiece using a few Resene testpots.

Top tip:

The metal legs of our chair were already painted black, but if you need to paint yours, get an adult to undercoat them first with Resene Galvo One primer.

Here's another idea:

Get a cool circus look using testpots of Resene Black, Resene Bright Spark, Resene Bright Red and Resene Curious Blue.
