

Difficulty level ★ easy ★★ moderate ★★★ challenging

Resene kids art with Mark Rayner – 33

You will need:

- 30cm length of thin dowel
- Gluestick
- Gold glitter
- Paintbrush
- Piece of cardboard
- Printout of Resene Rising Star stencil
- Resene Art Action Metallic in Resene Gold Dust
- Resene Multishield+ gloss
- Scissors
- Strong sticky tape

Step one

Stick the stencil printout to the piece of cardboard using the gluestick. Allow to dry.

Step two

Carefully cut out the star shape using the scissors – you might need to get a grown up to help with this bit.

Step three

Attach the dowel to the back of the cardboard star with strong sticky tape and paint the front of the star with Resene Gold Dust. Allow to dry.

Step four

Paint a generous coat of Resene Multishield+ gloss to the front of the star and sprinkle with gold glitter. Allow to dry before shaking off any excess glitter and using your new magic wand.

Use a stencil from the Resene stencil library to create your very own magic star wand.

Top tip:

You can also use clear drying PVA glue to stick glitter on.

Here's another idea:

Try a cool blue magic wand using Resene Time Warp and blue glitter.
