

★★★ Difficulty level ★ easy ★★ moderate ★★★ challenging

Resene kids art with Mark Rayner – 48

### You will need:

- Artists' paintbrushes
- Blue sequins
- Cardboard
- Pencil
- PVA glue
- Resene Quick Dry waterborne primer undercoat
- Resene Testpots in the following colours: Resene Bright Red and Resene Tuft Bush
- Scissors
- Yellow wool

#### Step one

Draw the puppet's body, arms and hands on a piece of cardboard and carefully cut it out with scissors (you might need to have a grown-up help with this bit).

#### Step two

Paint the spoon and cardboard body with one coat of Resene Quick Dry waterborne primer undercoat and allow to dry for one hour.

#### Step three

Paint the spoon and hands with two coats of Resene Tuft Bush and allow two hours for each coat to dry.

#### Step four

Paint the dress with two coats of Resene Bright Red and allow two hours for each coat to dry.

#### Step five

Cut some lengths of yellow wool with the scissors (again, you might need to have a grown-up help with this bit), and fix to the head of the spoon with PVA glue.

#### Step six

Glue two blue sequins in place to make the eyes, and paint in a smiley mouth with Resene Bright Red, and leave for two hours to dry.

#### Top tip:

Keep your puppet flat while the PVA glue is drying – otherwise her eyes and hair may slip off!

#### Here's another idea:

These two puppets were made using testpots of Resene Curious Blue, Resene Wham, Resene West Side and Resene Havoc. They were then decorated with coloured feathers and paua shell.
