- Resene Quick Dry waterborne primer undercoat
- Resene Testpot or Resene Golden Fizz
- Self adhesive letters (optional)

Step one

Prime both sides of the MDF door handle sign with one coat of Resene Quick Dry and allow to dry for two hours.

Step two

Paint both sides of the MDF sign with two coats of Resene Golden Fizz, allowing two hours for each coat to dry.

Step three

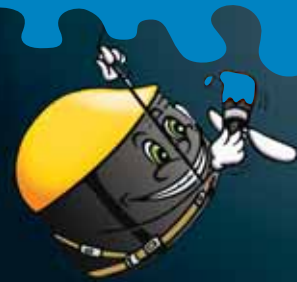

Apply the words 'do not disturb' across the front of the sign using the self adhesive letters, as shown, or paint them on if you don't have self adhesive letters.

Step four

Finish off with a flower sticker, then hang your sign on the outside of your bedroom door handle and enjoy the peace and quiet!

Get some well-deserved peace and quiet with this cool bedroom door handle sign.

Top tip:

If you don't have a MDF door handle sign, simply make your own out of a piece of thick cardboard.

Here's another idea:

This groovy door handle sign was made using Resene Havoc and a colourful butterfly sticker.
