

★★★ Difficulty level ★ easy ★★ moderate ★★★ challenging Fun with furniture with Mark Rayner – 5

You will need:

- Clean cloth
- Kitset canvas deckchair (ours came from Mitre 10 Mega)
- Paintbrush
- Resene Lumbersider tinted to Resene Bright Red
- Resene Waterborne Smooth Surface Sealer
- Sandpaper
- Screwdriver

Step one
Remove the kitset deckchair from the packaging.

Step two
Carefully take off the protective cardboard covers from the deckchair legs.

Step three
Unscrew the plastic leg brackets, as shown, and put to one side.

Step four
Lightly sand the entire deckchair frame to provide a 'key'. Wipe off any sanding dust with a clean cloth.

Step five
Apply one coat of Resene Waterborne Smooth Surface Sealer to the deckchair frame and allow two hours to dry.

Step six
Apply two coats of Resene Bright Red to the deckchair frame, allowing two hours for each coat to dry.

Step seven
Screw the plastic leg brackets back into position, as shown.

Step eight
Following manufacturer's instructions, thread the canvas seat into position on the deckchair frame, fixing in place with the dowel provided.

Turn a plain kitset deckchair into an eye-catching piece of garden furniture using a bold Resene red.

To get the look:

Mark painted the background shed wall with Resene Lumbersider tinted to Resene Curious Blue.

Other ideas:

For a cool, elegant look paint the deckchair frame with Resene Colonial White.
