

**WARNING**

Read label before use. Keep out reach of children. This material is quite bland; with vapour, occasional skin contact and even minor ingestion having negligible hazard. Repeated skin contact may, and any eye contact will, cause irritation.

**PRECAUTIONS**

USE WITH ADEQUATE VENTILATION. DO NOT EAT, DRINK OR SMOKE WHILE USING.

Store in original or correctly labelled container, tightly closed, in a well ventilated area indoors, away from foodstuffs, either between 15°C–20°C or at a cool, constant temperature. Dispose of empty container safely. Consult Resene checklist on environmentally acceptable methods of cleaning equipment and disposing of unwanted paint. Do not contaminate any water supply.

**FIRST AID**

**SWALLOWED:** If significant amounts have been ingested give water to dilute. Do not cause vomiting. Get medical attention without delay.

**SKIN:** If significant skin contact occurs wash skin thoroughly with soap and water. Do not scrub skin.

**EYES:** Hold open and flood with water for at least 15 minutes. Get medical attention without delay.

When seeking medical advice take this container with you. Further information can be obtained from

NZ: NATIONAL POISONS CENTRE (03) 474 7000  
or from the Resene Help Line (0800) 737 363.

AUST: NATIONAL POISONS CENTRE 1800 131 126  
or from the Resene Help Line 1800 738 383.

For use in cleaning interior painted surfaces.

**SPILLS:** Absorb with sand or earth. Collect and seal in properly labelled drums. Do not allow to run off into waterways. Refer to local waste management authority.

# Interior Paintwork Cleaner

ready to use

net contents 250ml

Resene Interior Paintwork Cleaner is a labour saving non-dulling neutral cleaner designed for use on all interior painted surfaces. Quick and easy to use, it dries film-free eliminating the need for rinsing.

This pack is supplied in ready to use form. Do not dilute contents.

- Dip a soft lint free cloth, such as a Jif Ballerina, into the diluted detergent solution. Do not saturate the cloth as this could lead to runs and streaking. If using a spray pack, apply the Paintwork Cleaner direct to the surface you wish to clean.
- Using light strokes, thoroughly wipe the area to be cleaned turning the cloth frequently to maintain a clean edge. Wipe away any excess solution. Wring the cleaning cloth out into an empty bucket before reapplying further detergent solution. This will minimise the appearance of streaks. In order to achieve an even finish, finally wipe using a soft dry lint-free cloth in the direction of the paint flow.
- If trying to remove a localised mark, start from a radius wide of the mark and work towards it. This will minimise any 'tide mark' that might develop.
- Always test the cleaning method in an inconspicuous area to ensure the cleaning process you plan to use does not damage the finish of the paint. Wait until the test area has dried before using the same technique on more conspicuous areas. Walls may appear discoloured as they absorb the water, but should dry back to their original colour.
- Do not vigorously scrub the surface nor use an abrasive and strong detergent as you may burnish the paint surface and mar the paint finish. Do not wash walls for a month after painting, as waterborne paints require this period of time to fully develop their properties.
- If you have sensitive skin, gloves are recommended.

In every case it is recommended that the appropriate Material Safety Data Sheet is consulted prior to application. For further painting advice and information, call 1800 738 383 (AUST), 0800 RESENE (NZ) or visit the Resene website.
