PRIZED PEDESTAL ▶

A pedestal side table not only looks great but is a clever solution for small spaces. Here the Madras Link Emery Cocktail Table with its curved wine glass shaped base connects with the bold graphic rug..

◀ SCULPTURAL SEATING

These sculptural sheepskin floor cushions can be used as a floor seat or footstool but are soft enough to cosy up and lay your head on for relaxed lounging or reading on the floor.

▶ LIGHT READING ▶

The Ginkgo Smart Book Light masquerades as a natural leather book, but when opened, it transforms into a sculptural long-lasting LED light that's an ideal choice for a reading space.

▶ SIDE STATEMENT

A side table can sometimes be a focal point. This Madras Link Ponte Brass Side Table with curved brass detailing and a glass top is a statement piece in this cosy nook.

▶ WARMING WOOL ▶

Large woollen rugs like this Quadriglia rug from Dilana designed by artist Chiara Corbelletto, bring a luxurious warmth underfoot, while this graphic pattern brings warmth to the eye and echoes the curves of the chair.

Cosy nook

Three soft colours combine to create a soothing layered effect, to match the texture of the Betty Bouclé Occasional Chair by Ballantynes with accessories to mirror the curves. The neutral pink of the Resene Cashmere wall is decorated with frames in warm tones of Resene Twine and Resene Lone Ranger.
