THE BOLD AND BEAUTIFUL CURVES OF THE OLIVE BEDHEAD FROM WINK DESIGN POP AMID STRIPES OF RESENE VALENTINE AND RESENE INSPIRE IN THIS WHIMSICAL BEDROOM.

Boutique chic

Inspired by the joyful eccentricity of English boutique hotel interiors, this feminine maximalist look is a feast for the eyes that thrives on a bold clash of patterns and colours. The Olive Bedhead from Wink Design stands out against the brand new pinks of Resene Valentine and Resene Inspire. These wall colours soften the hard edges of the black checked linen duvet and cushions in stripes, floral, checks and pink velvet. The look is pulled together and grounded by the solid black and pink of the side table, throw and chair.

CHECKING IN ▶

Against a plain backdrop, this classic gingham checked duvet set would be the focal point, but here it simply holds its own among a collection of objects with equally strong personalities. Maximalism is all about self-expression and layering of patterns and textures. There are no rules here, apart from limiting your colour palette to create cohesion.

▲ PRETTY IN PINK

The pink shade of this Qeeboo Ribbon Chair sits comfortably between the two wall colours and is designed to lighten the mood of any space, with a curved ribbon back to bring the sweetest of dreams into this whimsical bedroom.

▼ THE RIGHT STRIPES

This black and white striped lamp is perfectly at home in this environment, echoing the stripes on the wall and cushions while connecting with the black of the duvet and side table. It's a practical piece with a fun personality.

BLACK CANVAS ▶

The solid block of black from this Tomo side table has a grounding influence, and its contemporary silhouette with shelf also acts as a blank canvas for the striped lamp and pink books, with wall colour peeking through connecting each element.

THE OLIVE BEDHEAD FROM WINK DESIGN STRIKES A CALM POSE IN THIS SERENE BEDROOM WITH A BACKDROP OF RESENE TRANSCEND, RESENE TEA AND RESENE QUARTER TEA.

Sage haven

Resene Transcend is a fresh minty sage from the latest Resene fashion colour fandeck that inspired this look and complements the warm neutrals of Resene Tea and stripe in Resene Quarter Tea to create a soothing space that feels like a coastal retreat. The Olive Bedhead from Wink Design is perfectly at home in this neutral territory, where cool shades of sage, white and grey come together with warm tones of oat and tan. Natural textures of wool and linen bring a relaxed luxury to this minimalist bedroom.

▲ CURVED COMFORT

Like all bedheads from Wink Design the Olive bedhead is a customisable piece that can be upholstered in a selection of fabrics from the website or you can BYO fabric for a personalised look to match your décor. With its two arches you can even choose a different fabric for each side of the Olive bedhead. Here the neutral bouclé brings luxurious texture to this soft linen look. Wink Design also makes customisable lampshades, cushions and valances for a cohesive look, made from sustainable materials that are easy on the planet.

◀ NATURAL WARMTH

These woollen throws are an ideal accompaniment for the linen bedding. They are relaxed and natural with a luxurious texture. Each throw was chosen to sit comfortably with the Resene colours and linen bedding for a calming, harmonious look.

◀ CLASSICAL CALM

This Greek column-inspired side table brings an intriguing sculptural element to the space, keeping things cool and neutral within the soft colour palette while providing a practical base for bedtime essentials.

LOVEABLE LINEN ▶

Creating a natural bedroom look calls for natural textures, and this 100 per cent pure French flax linen bedding from Home Lab is the perfect addition for luxurious bedroom styling and comfort. Linen adds warmth and cosiness in winter and lightness and breathability in summer.
