under the
Sea

Breathe new life into an old set of drawers with colours and creatures from the ocean.

TIP: If you can't find fish handles, make your own using MDF and a jigsaw. Don't forget they'll need priming which you can do with Resene Quick Dry primer undercoat.

hang it...

For easy-to-make hooks for your child's bedroom, download these stencils (with plenty more to choose from) from www.resene.co.nz/kids/kids_stencils.htm

★ *Projects designed by Mark Rayner.*

Resene

the paint the professionals use

0800 RESENE (737 363) www.resene.co.nz

STEP-BY-STEP

STEP 1: Remove the drawers and drawer handles and fill the holes with interior filler. Allow to dry and lightly sand all surfaces.

STEP 2: Apply one coat of Resene Smooth Surface Sealer to the drawers. Allow to dry.

STEP 3: Apply two coats of Resene Resolution Blue to the drawers. Allow to dry. Replace the drawers and paint a band of two coats of Resene Corvette along the bottom for a sandy seabed.

STEP 4: With an artist's brush, paint a coral formation using Resene West Side, seaweed using Resene Grass Stain and another cluster of coral using Resene Havoc. Allow to dry.

STEP 5: With a 4mm drill bit, drill and fix handles into position with screws and a generous blob of construction glue.

*The base paint for this project was Resene Lustacryl tinted to the various colours used.
