

Resene product labels are updated from time to time. This label is provided as a guide for this product and may differ from the label on the container you purchase. Please discuss your project with your local Resene ColorShop team or reseller to ensure you have the right products to give you the best quality finish for your specific project.

**SAFETY PRECAUTIONS**

Read label before use. Keep out of reach of children. Harmful to aquatic life with long lasting effects.

**PRECAUTIONS**

DO NOT EAT, DRINK OR SMOKE WHILE USING.  
Store in original or correctly labelled container, tightly closed, in a well-ventilated area indoors, away from foodstuffs, at an ambient temperature and avoid freezing conditions. Avoid release to the environment.

**FIRST AID**

IF SWALLOWED: Call a POISON CENTRE, doctor or first aider if you feel unwell.

IF ON SKIN (or hair): Rinse skin with soap and water. If skin irritation or rash occurs get medical advice or attention.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing. If eye irritation persists get medical advice or attention.

If exposed or concerned get medical advice or attention. When seeking medical advice take this container with you. Further information can be obtained from

AUST: POISONS INFORMATION CENTRE 131 126  
or call Resene 1800 738 383.

NZ: NATIONAL POISONS CENTRE 0800 POISON (764 766)  
or call Resene 0800 737 363.

For use as a surface preparation coating.

**SPILLS:** Wear appropriate protective clothing. Absorb with sand or earth. Collect and seal in properly labelled drums. Do not allow to enter drains or to run off into waterways. Refer to local waste management authority.

Quick Dry  
End Seal SDS

# Resene

## Quick Dry End Seal waterborne exterior/interior

net contents 450 mL

Resene Quick Dry End Seal provides long-term flexibility over unstable substrates coupled with exceptional durability even when left uncoated for prolonged periods.

**Preparation**

- Ensure all end grains and bare timber areas substrates to be coated are in sound condition, dry, free from dirt, dust, loose material, oil (including mineral oil-based wood finishes or similar) and salt.
- Remove accumulated windblown salt by washing with Resene Paint Prep and Housewash (see Data Sheet D812).
- Water blasting is the best surface preparation prior to painting of weathered cementitious surfaces.
- If mould is present, treat with Resene Moss & Mould Killer (see Data Sheet D80). Efflorescence on masonry **must be treated**.
- Remove oil and grease with Resene Paint Prep and Housewash. Flush clean with water.
- Round all sharp timber edges. Thoroughly sand or treat any bare timber surface that has been left exposed to the weather for more than one week with Resene TimberLock (see Data Sheet D48).
- **All sanding dusts can be harmful. Always wear appropriate protection. In particular, dust from old lead or chromate-based paints or old building materials containing asbestos can be injurious to health if inhaled or ingested. Seek expert advice if the presence of these materials is suspected.**

**Application**

- Apply one or two coats of Resene Quick Dry End Seal allowing at least two hours between coats. Lightly sand between coats.

**Overcoating**

- Overcoat if sealed ends are fully exposed to weathering with two coats of a Resene exterior waterborne or solventborne topcoat.

**Be PaintWise**

For tips on responsible disposal of paint, cleaning equipment and minimising the impact of your decorating on the environment see the Resene website. Do not discharge any paint into the environment. Resene PaintWise (NZ) or paintback.com.au (Australia) accepts residual unwanted paint and packaging. Or contact your Local Authority for disposal information. Please recycle.
